### Conference Venue: The Splendor Hotel, Taichung, Taiwan

**Sponsors:** Chaoyang University of Technology, University of Aizu, Iwate Prefectural University, Ministry of Science and Technology of Taiwan, Bureau of Foreign Trade of Taiwan, Xiamen University of Technology, Academia-Industry Consortium for Central Taiwan Science Park, and Feng Chia University.

**Technical Sponsors:** IEEE SMC Society, IEEE SMC Society Taipei Chapter, IEEE SMC Society Taichung Chapter, IEEE SMCS Technical Committee on Awareness Computing, and IEEE Sendai Section.

**Additional Support is Provided by:** Taiwanese Association for Consumer Electronics, Taiwan Education Society of Innovation and Invention, Taiwan Association for Web Intelligence Consortium, Chinese Cryptology and Information Security Association, and Taiwanese Association for Artificial Intelligence.

**Scope:** "Awareness" is the ability to be conscious of, feel, or perceive (Wikipedia). This implies vigilance in observation and alertness in drawing inferences from what one experiences (Merriam-Webster). The ultimate goal of awareness computing is to create computing systems that are themselves aware. This conference has been evolved from the International Workshop on Aware Computing (IWAC 2009), in Aizu-Wakamatsu, Japan, the International Symposium on Aware Computing (ISAC 2010) in Tainan, Taiwan, the International Conference on Awareness Science and Technology (iCAST 2011) in Dalian, China, iCAST 2012 in Seoul, Korea, iCAST 2013 in Aizu-Wakamatsu, Japan, iCAST 2014 in Paris, France, and iCAST 2015 in Qinhuangdao, China. The conference provides a forum for researchers, engineers, and scientists for discussing awareness computing and exchanging ideas, opinions, and the latest results in this emerging new field. Topics of interest include, but are **not limited** to, the following:

#### A: Awareness Science:

- A1: Awareness mechanism and modeling
- A2: Machine learning/deep learning
- A3: Pattern recognition and image understanding
- A4: Neuro-computing/perception/cognition

- **August 10, 2017:** Deadline for paper submission (no extended in the future)
- **September 05, 2017:** Notification of paper acceptance
- **September 15, 2017:** Submission of final camera-ready papers
- **October 01, 2017:** Deadline for registration

### Paper Submission and Publication

Paper needs to be submitted in IEEE two-column format and should be written in English. Manuscript should be unpublished work, must include enough detail about the goal, the problem to solve, proposed methods and main results. The length of the final camera-ready paper is 4-6 pages (maximum of additional two pages with extra charge). Each topic will select 1 or 2 presented papers to be the Best Conference Award papers. Please see Guidelines for the Best Conference Paper Award Contest for details.

All accepted regular papers will be published by **Conference Publishing Service** of IEEE and submitted to **IEEE Xplore digital library**. Also they are submitted for indexing in **EI (Compendex)** and **Scopus**. Selected papers will be recommended for post-conference publication in some **Science Citation Index Expanded, EI, or Scopus journals**, such as **International Journal of Computational Science and Engineering, International Journal of Embedded Systems, International Journal of High Performance Computing and Networking, International Journal of Network Security, and International Journal of Applied Science and Engineering**.
